ATTACHMENT 2

SYSTEM STUDY AGREEMENT

Distributed Resource Facility near _____, Ohio

_____ (Member-Owner) agrees to reimburse North Western Electric Cooperative, Inc. (the Cooperative) for its actual full costs, including applicable overheads, in conducting the study summarized herein. The study cost is anticipated to be approximately \$ _____. Member-Owner understands that the cost identified here is an estimate, and the actual study cost may be higher or lower. The charge shall not exceed the actual cost of the study.

Cooperative requests that an executed System Study Agreement be received by Cooperative within seven (7) days of Member-Owner’s receipt of this System Study Agreement.

A refundable deposit of \$ _____ plus, the anticipated study cost will be required to start the study.

Per the Study Scope below, this study will determine the impact on the Cooperative distribution system in interconnecting this new Distributed Resource Facility, and the details/cost of the facilities necessary for interconnecting this Distributed Resource Facility with the Cooperative distribution system as well as any system additions/upgrades that are needed. Cooperative will submit a written report following the conclusion of this study. Cooperative estimates that this study will require _____ to _____ weeks to complete after its commencement date. Any change of scope after the study has been started may lengthen the study completion time and change the estimated cost of the study.

Study Scope: Member-Owner desires to interconnect a _____ MW Distributed Resource Facility with Cooperative’s distribution system. The Distributed Resource Facility is a _____ located near _____, Ohio. Member-Owner desires to interconnect the Distributed Resource Facility on _____.

Data/Connection Requirements: Cooperative has received data from Member-Owner to initiate the study and will request additional information as required.

Cooperative may engage consultants and third-party contractors to conduct all or any part of the system study. Cooperative will pass through to the Member-Owner the cost of any such consultants and third-party contractors. Additional system studies may be required by the applicable transmission owner and transmission provider/operator. The Member-Owner will be responsible for the cost of any required system studies conducted by such transmission owner and transmission provider/operator and will pay these costs directly to the entities involved.
