

New Construction Electric Water Heater Rebate Agreement July 1, 2026 – June 30, 2027

It is in the joint interest of North Western Electric Cooperative (NWECC) and its members to reduce electricity demand and promote the use of high-efficiency appliances. NWECC will offer a rebate to encourage energy efficiency for approved water heaters. To qualify for a water heater rebate, the member must agree to adhere to the following program requirements.

Water Heater Specifications

- **Electric storage tank unit**
 - Tank size: **50 gallons or larger**
 - Purchase price: **\$250 or more**
 - Uniform Energy Rating (UEF): **Greater than .90 (greater than 90% efficient)**
 - Must be a new electric water heater
- **Heat pump hybrid unit**
 - Tank size requirement: **55 gallons or less**
 - Purchase price: **\$400 or more**
 - Must be a new heat pump hybrid water heater
- Must be the sole supply of hot water needs of the member served by NWECC.
- Installation shall comply with all applicable local and state plumbing and electrical code requirements and is not or will not be connected to or operated in parallel with any other source of heating water other than an electric heat pump.
- An electric storage tank without digital controls must be installed to accommodate the installation of a radio control switch to control the electric service to the water heater as part of NWECC's Radio Control Switch Program. See the *Electric Water Heater Installation Guidelines* for details.
- **Solar and on-demand tankless water heaters do not qualify.**

Water Heater Program Conditions

- **Electric storage tanks without digital controls**
 - Installation of a radio control switch (RCS) is required.
 - Once the water heater is fully operational, it is the member's responsibility to notify NWECC to arrange the appointment for the required RCS installation.
 - There is no charge to the member for the RCS, its installation, inspection, or removal, and the RCS will remain the property of NWECC.

- NWEAC employees and contractors are permitted to come on the premises at reasonable hours and with prior notice to conduct maintenance and to replace the RCS as necessary. The RCS is subject to random inspection upon reasonable notice.
- The radio control switch must remain installed for 5 years. Should the member remove, or permit the removal or disconnection, of the radio control switch, the member will be liable to repay the rebate amount and any credit applied to the monthly statement after removal.
- The participating member shall receive a three-dollar (\$3.00) credit per month on their electric bill; however, to receive the credit, it is required that the billed usage is greater than 200 kWh for that month.
- **Electric storage tanks with digital controls**
 - Water heaters with digital controls are not eligible for the radio control switch program.
 - NWEAC offers the rebate on these models to encourage the purchase of the most energy-efficient model of electric water heater.
- **Heat pump hybrid water heaters**
 - Heat pump hybrid water heaters are not eligible for the radio control switch program.
 - NWEAC offers the rebate on these models to encourage the purchase of the most energy-efficient model of electric water heater.

Rebate Requirements

- **Must be the original installation of a water heater in new construction. Water heater replacements in existing services do not qualify.**
- The rebate must be requested by the property owner or authorized business representative.
- A rebate request form and proof of purchase must be submitted to NWEAC within 60 days of the purchase of the water heater.
- A rebate will be issued by NWEAC in the form of a bill credit for the following amount:
 - Electric storage tank - \$250
 - Heat pump hybrid water heater - \$400
- Limit one rebate per residential service address.
- A maximum of \$1,000 (or 50 percent of the installed project cost, whichever is lower) may be paid for a non-residential member facility installing multiple water heaters.
- The bill credit will be applied to the member's electric service account where the water heater is installed. If the member is not the property owner, the rebate will be issued as a check to the property owner.

- The rebate request forms are available in the NWECC office or can be printed from NWECC's website at www.nwec.com.

Rebate Submission

Submit completed rebate request forms and all required documentation using one of the methods below:

- Email: info@nwec.com
- In person: NWECC office at 4125 State Route 576, Bryan
- Mail: PO Box 391, Bryan, OH 43506

The Cooperative will periodically review this program to determine its continuance and value to our members.
